

Rat Antidiuretic Hormone ELISA Kit

Catalogue No.: abx155208

Rat Antidiuretic Hormone ELISA Kit is a competitive ELISA kit for use with Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids. This assay has high sensitivity and excellent specificity for detection of Antidiuretic Hormone (ADH)

No significant cross-reactivity or interference between Antidiuretic Hormone (ADH) and analogues was observed.

Target:

Antidiuretic Hormone (ADH)

Reactivity:

Rat

Tested Applications:

ELISA

Test Range:

12.35 - 1000 pg/ml

Sensitivity:

4.42 pg/ml

Storage:

Store at 2-8 °C for 6 months from date of receipt. The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.

Availability:

Shipped within 1-2 weeks.

Note:

This product is for research use only.
